TwB Support to FCA's Education Projects

IN-COUNTRY POSITION / Uganda

Location	Different project locations in Uganda (including Yumbe, Arua and Moyo Districts)
Host Organization	Finn Church Aid (FCA) Uganda Country Office (UGACO)
Length of Posting	Depending on the project 4-8 months
Date of Deployment	Between February and August 2022, and possibly autumn 2022 (depending on the availability of funding)
Number of Positions	4-6 people
Title of the Position	Education Advisor (TwB Volunteer)

NOTE the realization of in-country volunteer positions depends on the global and local health situation.

Description of the Project/Projects

UGACO implements both Education in Emergencies (EiE) and development cooperation context education projects that contribute to FCA's global education thematic area, Right to Quality Education (R2QE), with the goal of improved access and better quality of learning for all. Education programs and projects are designed and implemented to achieve this goal. The current running projects include:

1. **SCORE – Sustainable Comprehensive Response to Education** -project. FCA with financial support from UNICEF and in collaboration with the District Local Governments have been implementing the project since 2017 covering districts in Northern and South-Western part of the country. The SCORE project aims to improve equitable access to safe, quality education, strengthen the capacity of teachers in pedagogy and inclusive teaching practices as well as to enhance the capacity of the school management. In addition, the project aims to engage local communities and increase stakeholder (parents, lower local councils, traditional and religious leaders) involvement in promoting effective and inclusive education service delivery.

The project has two components of primary and pre-primary education related activities. In 2022, the first quarter of the year will focus on the pre-primary -level. The early childhood development (ECD) component of the SCORE project aims at increasing access to quality pre-primary education through formal and non-formal learning centres in refugee hosting districts with the following main objectives; I) Increased access to integrated ECD services

of refugee and host community children through community based ECD centers in refugee host districts; II) Increased knowledge, skills and practices in caring and educating children by, caregivers and leaders at targeted ECD centres, communities and households; and III) Strengthened district local governments, sub-counties and settlement capacity to coordinate and scale up the delivery of quality inclusive ECD services in the respective districts. The project will be implemented in West Nile and South-Western districts of Uganda.

2. **LEARN – Lasting Education Achievements Responding to Needs** -project, aims to increase and improve equitable and inclusive quality education for refugee and host community children and adolescents in refugee settlements in Yumbe, Obongi, Keygegwa and Kamwange Districts funded by the Bureau of Population, Refugee and Migration (BPRM). The project aims also to enhance protection and wellbeing of secondary learners and respond to Covid-19 impact on secondary education and protection of learners.
3. **PLAY TO LEARN – Re-thinking Learning in Crisis Settings** is a tentative project with anticipated funds from the LEGO Foundation, as a part of which FCA plans to introduce an innovation that brings functional and play based pedagogy, and mobile learning opportunities for Out of School Children (OOSC). The key pedagogical activities and support targeting teachers would include training of teacher in functional and play-based learning, teacher-learning circles, and refinement of materials and tools for functional and play-based learning. **NOTE in addition to the in-country period (preferred minimum length of 6 months), the volunteer(s) may be asked to do distance tasks prior and after the deployment in consultation with the project team. The realization of the position is dependent on securing the funding.**

In general terms, current FCA running education projects in Uganda aim at improving access to safe and inclusive quality education for the Refugee and Host community children, in addition to enhancing protection, wellbeing and peaceful co-existence of ECD, primary and secondary school learners through teachers' continuous professional development (CPD), capacity building of school management committees, and other education stakeholders, provision of educational materials to schools and children as the key activities amongst others.

FCA works with Teachers without Borders (TwB) -network to strengthen capacity of district education departments where its projects are implemented through teacher needs-based capacity building trainings and support focused on; improving pedagogical skills, support supervision, mentoring and coaching aimed at improving the quality of teaching, learning, formative assessment, inclusive education, and improved learning outcomes and wellbeing of teachers and learners.

The TwB volunteers will be based in the different FCA field offices in (West Nile and South Western), supporting teacher capacity building activities under projects implemented in location of deployment. An individually tailored ToR and work plan will be developed during the initial phase of the deployment.

NOTE over the course of their deployment, TwB volunteers may be asked to provide support to other FCA education projects in Uganda if need arises.

Volunteer's Main Tasks That Are Not Restricted to a Specific Projects and Locations Might Include

- Develop teacher-training materials based on available resources such as the Teachers in Crisis Contexts (TiCC) training package, the FCA Teacher Training Package, or any other material that may be provided.
- Work with the local Ugandan and refugee ECD caregivers / pre-primary, primary, AEP and secondary teachers to provide training, mentorship, and coaching support to improve on their pedagogical skills
- Support the Primary Teacher Colleges (PTCs,) Coordinating Centre Tutors (CCTs) to train, coach and mentor associate assessors and head teachers in inclusive learner-centred pedagogy, remedial and play-based learning, support supervision and any other theme that may be identified as relevant
- Strengthen the capacity of head teachers and teachers in assessment skills with a focus on formative assessment, and development of tools with special focus in the teaching of mathematics and science
- Conduct trainings, provide technical support to the project team and stakeholders on active learning and learning through play -approaches, as well as collaborative and experiential learning methods
- Support documentation of all CPD activities and share the learnings to promote cross-professional learning

Position Specific Qualifications and Competencies

- Masters' Degree in Education *and/or* at least 2 years of teaching experience in Finland
- Expertise and experience in ECD, primary *and/or* secondary education pedagogics, active and learning through play -methods, *and/or* special needs education
- Experience *or* interest in developing the capacity of ECD, Primary *and/or* Secondary school teachers
- Experience in mentoring and coaching of teachers *and/or* other education personnel is an asset
- Background in/*or* familiarity with emergency/humanitarian context is an asset
